

WOMEN'S AND FETAL HEALTH AND WELLBEING

Tartu, Estonia, September 19–20, 2018

Venue: Institute of Molecular and Cell Biology, University of Tartu, Omicum building, Riia 23b/2, auditorium 105

PROGRAMME:

Wednesday, September 19, 2018

09:30–10:00 Welcome coffee

10:00 Opening words, Professor Ants Kurg, University of Tartu

I session: ENDOMETRIOSIS PATHOGENESIS

10:15–10:50 **Christian Becker** (UOXF, Oxford, UK)
"Endometriosis, course of disease"

10:50–11:25 **Nilufer Rahmioglu** (UOXF, Oxford, UK)
"Largest genome-wide association meta-analysis of endometriosis and its subtypes including 63K cases and 482K controls reveals novel loci"

11:25–12:00 **Maarja Lepamets** (UTARTU, Tartu, EST)
"CNV analysis of endometriosis"

12:00–13:15 Lunch break

II session: EMBRYO GENOMICS

13:15–13:50 **Joris Vermeesch** (KU Leuven, Leuven, BEL)
"Genomic application in preimplantation and prenatal diagnosis"

13:50–14:25 **Olga Tšuiiko** (KU Leuven, Leuven, BEL)
"A closer look at chromosome instability in preimplantation embryos"

14:25–15:00 **Elia Fernandez-Gallardo** (KU Leuven, Leuven, BEL)
"Parallel single cell genome and transcriptome sequencing to study the chromosomal instability during human embryonic preimplantation development"

15:00–15:20 Coffee break

III session: SAFE REPRODUCTION

15:20–15:55 **Hanna Valli** (University of Pittsburgh, Pittsburgh, USA)
"Fertility preservation programs for women and men"

15:55–16:30 **Lauris Kaplinski** (UTARTU, Tartu, EST)
"Non-invasive prenatal diagnostics"

Thursday, September 20, 2018

09:00–09:30 Welcome coffee

IV session: TRILATERAL PATERNAL, MATERNAL AND EMBRYO COMMUNICATION

09:30–10:05 **Ingrid Granne** (UOXF, Oxford, UK)
"The influence of Seminal Fluid Extracellular Vesicles on human endometrium"

10:05–10:40 **Jennifer Southcombe** (UOXF, Oxford, UK)
"Endometrial immune profiles in subfertility – a detailed flow cytometric and transcriptomic investigation of immune cells in recurrent miscarriage and RIF"

10:40–11:15 **Kaarel Krjutškov** (UTARTU, Tartu, EST)
"READY-test: a novel endometrium receptivity test applying advanced biomarker profiling method"

11:15–11:50 **Alireza Fazeli** (UTARTU, Tartu, EST & University of Sheffield, UK)
"Embryo-Maternal Communication In the Era of Intercellular Epigenomics"

11:50–13:15 Lunch break

V session: NOVEL GENOMIC TECHNOLOGIES

13:15–13:50 **Omid Faridani** (Karolinska Institutet, Stockholm, SWE)
title TBD

13:50–14:25 **Edita Kriukienė** (Institute of Biotechnology, Vilnius University, Vilnius, LIT)
"High resolution epigenomic technologies for DNA modification analysis"

14:25–14:45 Coffee break

VI session: FROM EMBRYO TO A CHILD

14:45–15:20 **Heleen Masset** (KU Leuven, Leuven, BEL)
"Single-cell embryo research"

15:20–15:55 **Valery Zukin** (Clinic of Reproductive Medicine "Nadiya", Kyiv, UKR)
"Tri-parental conception in practice"

15:55–16:30 **Régine PM Steegers-Theunissen** (Erasmus University Medical Center, Rotterdam, NLD)
"Periconceptual parental conditions and health and disease in later life"

Closing remarks, Professor Andres Salumets, University of Tartu

The participation is for free; Registration until September 12 and additional information on webpage: <https://sisu.ut.ee/widenlife>

Funded by the European Union through the Coordination and Support Action of the H2020 program under grant agreement No 692065 „Widening the Scientific Excellence for Studies on Women's and Fetal Health and Wellbeing”
